# CTE Level 2 Technical Training

## CTE Level 2 Technical Training

### What's in the box?

The Certified Technology Expert Level 2 practical and theoretical training delivered across multiple modules.

- A fast-paced live lab over 2 days.
- An eLearning module on One Touch Join.
- A discursive clinic session to dive deeper into the technology.
- A final assessment.

In the labs session you will work collaboratively and gain hands-on experience in a virtual lab environment, deploying and configuring a Pexip Infinity platform, as well as integrating Infinity with other networked systems.

This is a technical course and we expect users to have a high level of IT experience and to be familiar with:

- Videoconferencing /Collaboration systems and solutions.
- IP networks /Firewalls /DNS /Certificates /Servers & Virtualisation /SIP H.323 protocols /Regular Expression.
- VMware vCentre / ESXi hypervisor.
- Microsoft Windows Server / Active Directory (LDAP), AD Certificate Services, Skype for Business & MS Teams.
- Microsoft Azure and Google Cloud service platforms.
- Remote administration of systems is via RDP and SSH terminals.

# Agenda overview

## - Labs

Day 1 : (7.5 hrs)

Morning :

Lab 1 - Introduction through to deployment

- 3.5 hours Labs & Sessions

Lunch:

- 30 minutes

Afternoon :

Lab 2 - Interop through to Integration

- 3.5 hours Labs & Sessions

Day 2 : (7 hrs)

Morning :

Lab 3 - Media traversal and more integrations

- 4 hours Labs & Sessions

Lunch:

- 30 minutes

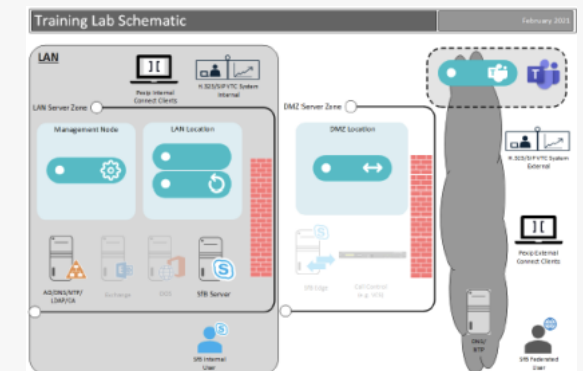

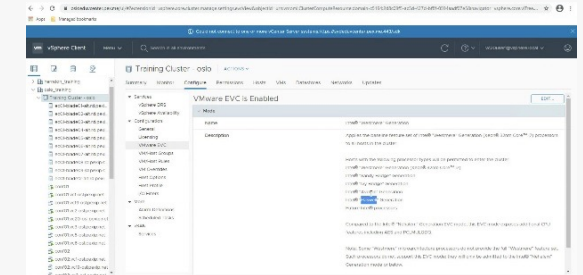

Afternoon:

Lab 4 - Join and UX

- 2.5 hours

# Watch then do

# Agenda overview

## - eLearning, Clinic & Assessment

### eLearning Modules:

One Touch Join

On-line module

– approx. 2 hours

### Clinic:

**Optional** Live, virtual forum to discuss items from the course and cover some more theory behind installing and configuring Infinity.

– 4 hours

### Final Assessment:

A series of on-line, self-paced quizzes to ensure understanding and that your learning objectives have been met

– approx. 2 hours

# Theory & Assessment
